PROFILE

I'm a **Java Developer** with over 3 years of experience in front-end and full stack development. Currently I'm developing new evolutives at PwC as a Blazar Group consultant. Proficient in **HTML, CSS, JavaScript, Angular, Java Spring Boot** and **relational databases**, I design and develop end-to-end solutions assuring top-notch code quality and seamless user interfaces. I'm curious about the latest industry trends and I constantly develop my knowledge and skills.

LANGUAGES

English, mother tongue
Italian, advanced

WORK EXPERIENCE

Java Developer

Blazar Group | Milan

Aug 2024 - Present

Working as consultant for PwC. I develop new features with Java, Spring and MongoDB.

Angular Developer

TECHSON S.r.l | Milan

Jan 2024 - July 2024

Working as consultant for Iriscube Reply. I do application maintenance activities and development of new evolutives for a CRM application (Intesa Sanpaolo). I use the technologies of Java, Spring Boot, Angular, Relational Databases, Jenkins and Git.

Java Full Stack Developer

Capgemini Engineering | Milan

Jan 2022 - Jan 2024

I was involved in projects in Energy and Automotive markets

ENEL: the goal of the R&D project is to manage data from hydrogen fueling stations
Managed and completed the developments of both the front-end/backend.

Managed a team of 3 technical consultants

Technology: Angular, .NET Framework / C#, Python, NodeJS, SQL Server and MongoDB

Bosch: the goal of the project was data management from Bosch sensors
Frontend and backend development (Microservices, REST API); Implemented new features in an existing IoT solution at Bosch working remotely with a high level of autonomy in a Scrum team .

Technology: Java Spring, Angular, Bootstrap, Prime NG, TypeScript, Open Layers, MongoDB, Python and AWS
