### PROFILE

I'm a **Java Developer** with over 2 years of experience in front-end and full stack development. Currently I'm developing new evolutives at Iriscube Reply as a TECHSON consultant. Proficient in **HTML, CSS, JavaScript, Angular, Java Spring Boot** and **relational databases**, I design and develop end-to-end solutions assuring top-notch code quality and seamless user interfaces. I'm curious about the latest industry trends and I constantly develop my knowledge and skills.

### LANGUAGES

Italian, mother tongue  
English, intermediate

### WORK EXPERIENCE

#### Consultant

TECHSON S.r.l | Milan

Jan 2024 - 2024

Working as consultant for Iriscube Reply. I do application maintenance activities and development of new evolutives for a CRM application (Intesa Sanpaolo). I use the technologies of Java, Spring Boot, Angular, Relational Databases, Jenkins and Git.

#### Java Full Stack Developer

Capgemini Engineering | Milan

Jul 2022 - Jan 2024

I was involved in projects in Energy and Automotive markets

**ENEL:** the goal of the R&D project is to manage data from hydrogen fueling stations  
Managed and completed the developments of both the front-end/backend.

Managed a team of 3 technical consultants

Technology: Angular, .NET Framework / C#, Python, NodeJS, SQL Server and MongoDB

**Bosch:** the goal of the project was data management from Bosch sensors  
Frontend and backend development (Microservices, REST API); Implemented new features in an existing IoT solution at Bosch working remotely with a high level of autonomy in a Scrum team .

Technology: Java Spring, Angular, Bootstrap, Prime NG, TypeScript, Open Layers, MongoDB, Python and AWS
